

From vision to delivery

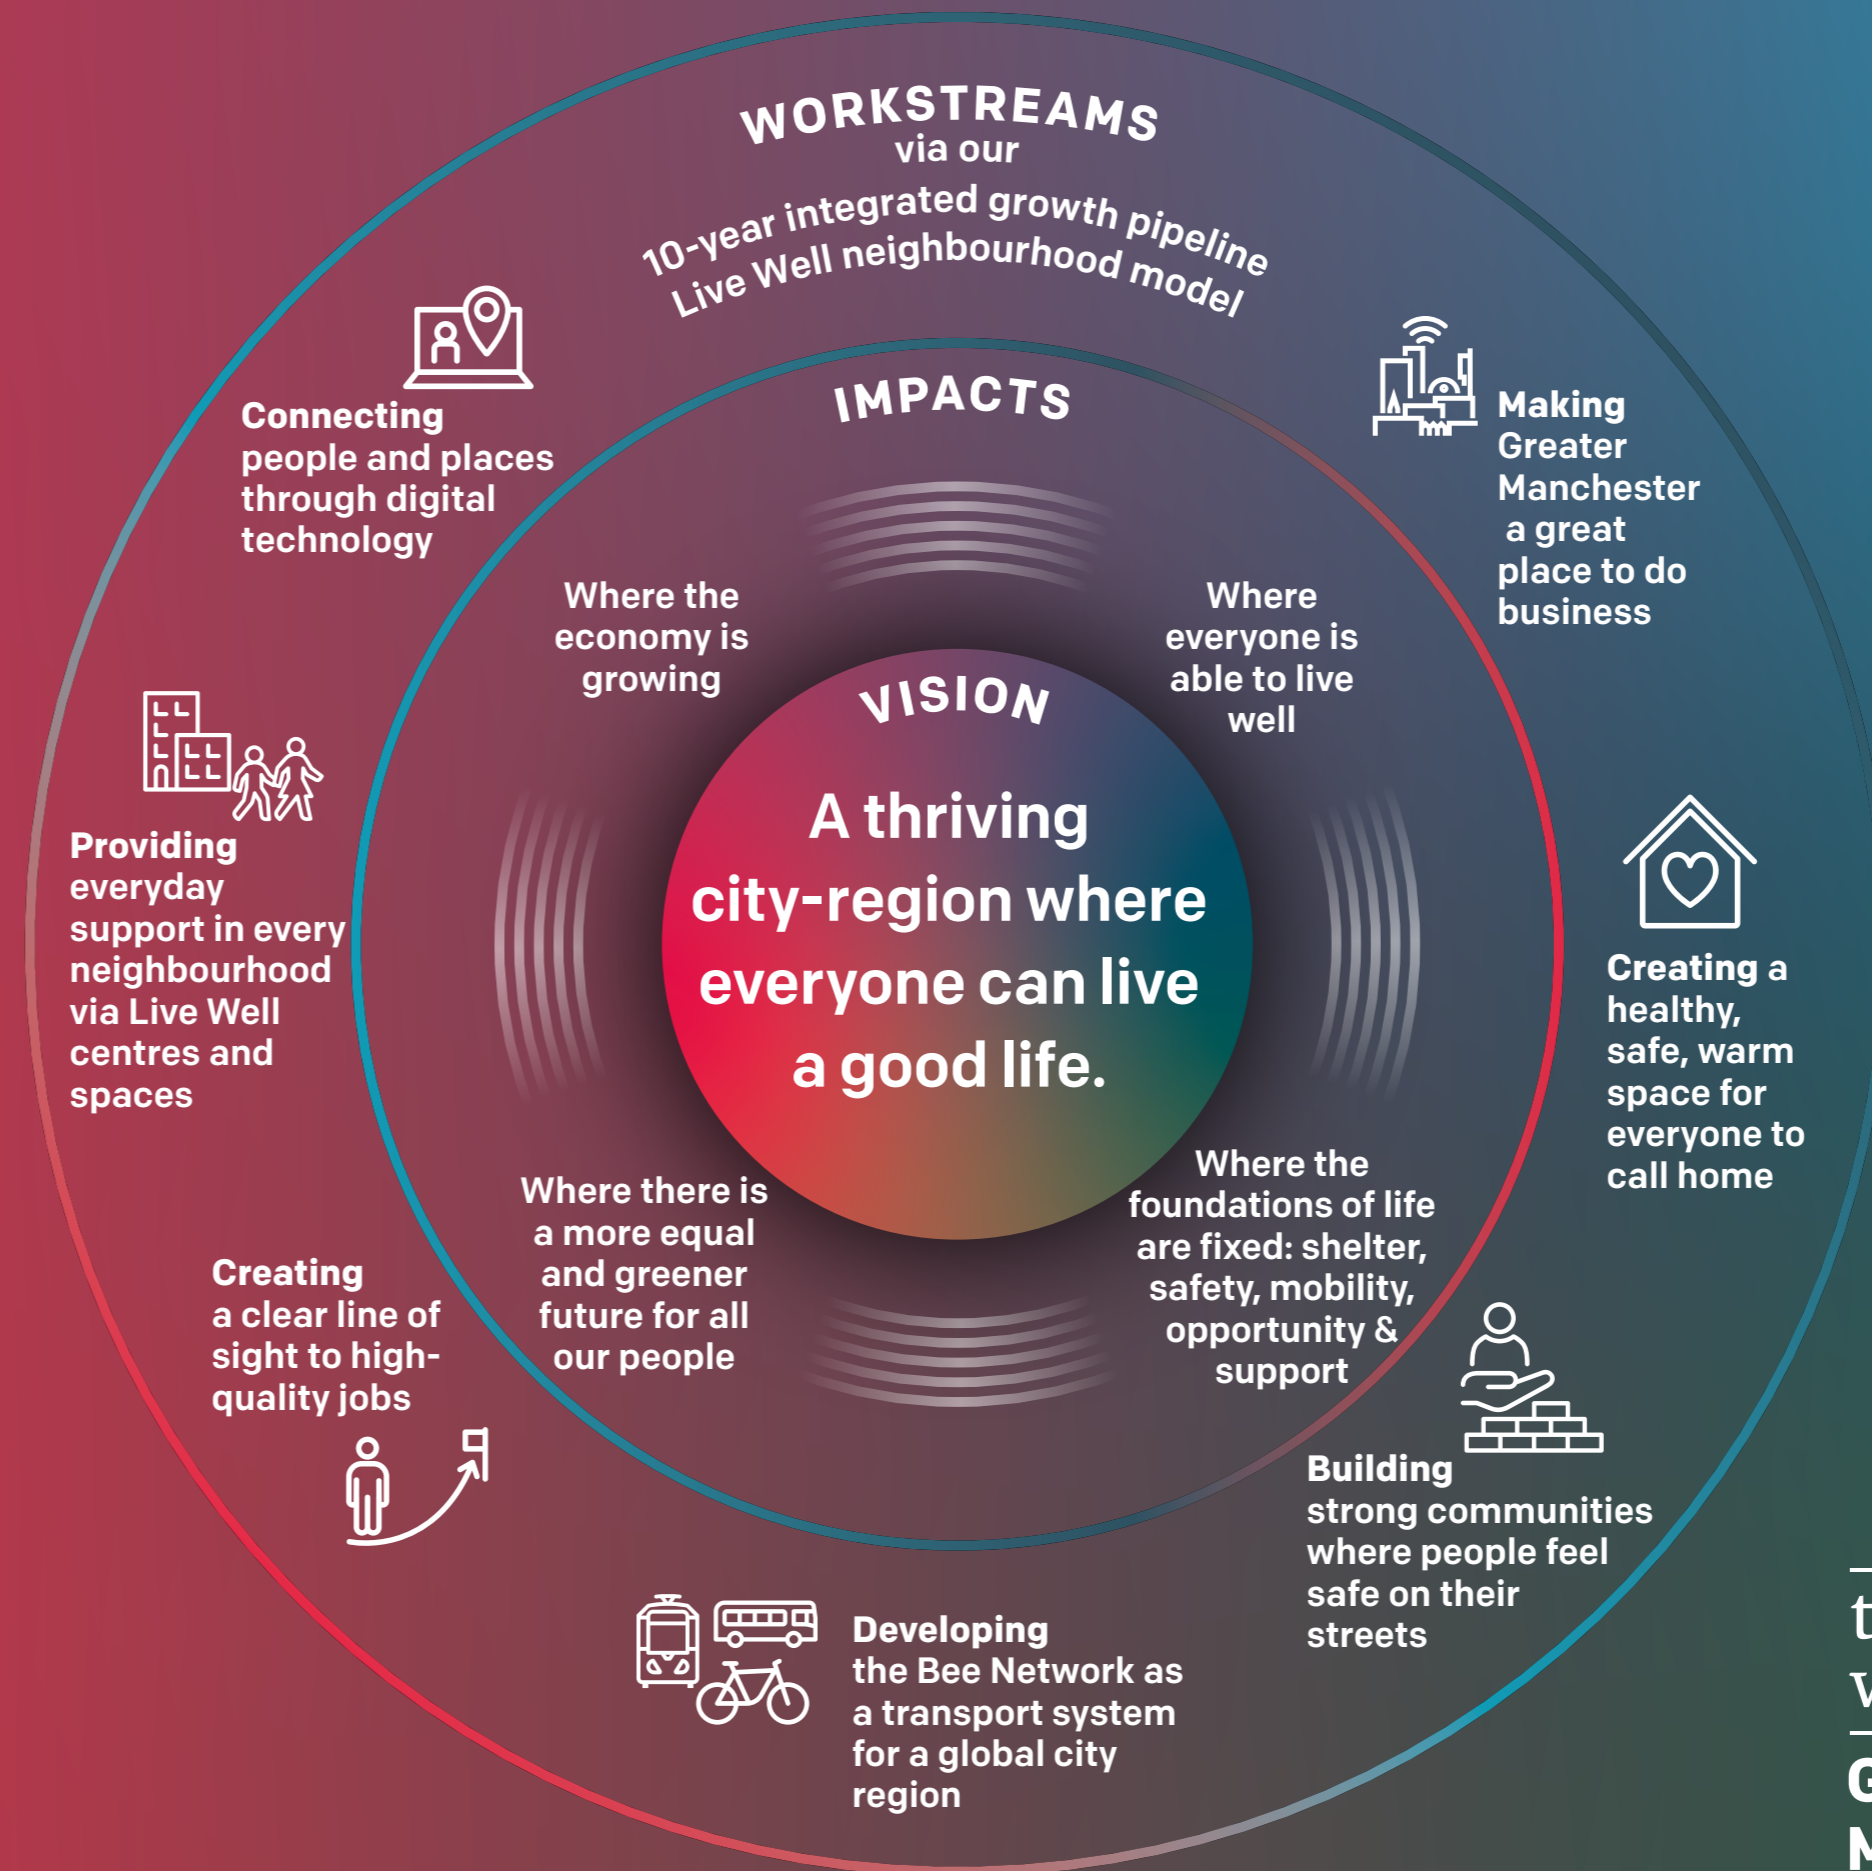

Economic and social progress have always gone hand in hand here, so Greater Manchester is only successful if every part of our city region and every person in our city region is successful.

Our plans for growth and our people are underpinned by seven workstreams which are designed to fix the foundations of life: shelter, safety, mobility, opportunity and support.

Each and every one will be delivered in a way that ensures a greener, more equal future for all.

That means people thriving in nature-rich environments resilient to climate change, with businesses making progress to Net Zero production. It means people feeling included, valued and with the power to participate in decisions about their community.

We will treat people as names not numbers, with effective public services taking a preventative approach.

together
we are

**GREATER
MANCHESTER**

A thriving city region where everyone can live a good life.

Our collective vision for Greater Manchester's next decade.

We are a city region with a global reach. At our heart is a vibrant central city, surrounded by unique places which together are home to nearly three million people.

We represent those diverse people, communities, businesses, and organisations of Greater Manchester. We've forged a partnership that's stronger than the sum of its parts, spanning the public, private, voluntary, community, faith, social enterprise and academic sectors.

Our hyper-collaborative approach has put Greater Manchester at the forefront of progress. We're home to renowned universities and

research institutions. We have the largest tech cluster outside London. We have one of Europe's top visitor economies, are the beating heart of the UK's creative industries, a sporting capital, pioneers of public transport and trailblazers of English devolution.

Our collective vision for the next decade is to see a thriving city region where everyone can live a good life.

But economic and social progress have always gone hand in hand here, so Greater Manchester is only successful if every part of our city region and every person in our city region is successful.

By creating the conditions for our people and our businesses to succeed we can unlock a new form of economic growth where no one is left behind.

Our plans for growing our economy and making sure all our people can live well will fix the foundations of life: shelter, safety, mobility, opportunity and support, deliver a greener city region and create a once in a generation opportunity to tackle all forms of inequality.

Our strategy is evidence-based, informed by data and deep knowledge of our communities and underpinned by a proven track record.

With the right backing and investment from the Government, we can get building, moving and working together to deliver for every place and everyone in Greater Manchester.

We'll achieve our vision by always focusing on two interlocking areas: growing our economy and making sure all our people can live well.

Healthy homes for all

A healthy, safe place to call home is the cornerstone of a healthy, happy life.

1.

Safe and strong communities

Safe streets and public transport in welcoming communities will allow us to feel confident going about our daily lives.

2.

A transport system for a global city region

Our Bee Network will make it even easier to get around, connecting every community like never before.

3.

A clear line of sight to high-quality jobs

Removing barriers to good employment will help reduce poverty, improve health, and boost the economy by closing critical skills gaps.

4.

Everyday support in every neighbourhood

We'll help everyone live well by improving access to support, connections and resources.

5.

A great place to do business

We'll kickstart another decade of growth by delivering homes, jobs and innovation, supporting existing and attracting new industries.

6.

Digitally connected places and people

It's essential that everyone in our city region can thrive in the digital age – a new industrial revolution powered by artificial intelligence.

7.
